DR. MORSE'S
INVIGORATING CORDIAL,
Phenomenon in Medicine...licatth Re
stored and Life Lengthened, by Dr. Morse'
Invigorating Elixir or Cordial.

A T first the properties attributed to Professor Morse's Invigorating Elixir or Cordial were deemed fabulous. The public often deceived could not believe the simple and sublime truths announced by the discoverer. But facts, undeniable

nounced by the discoverer. But facts, undeniable facts, attested by winesses of the highest class and character, are now triumphing over all doubts. Incredulity is overthrown by a mass of testimony which is perfectly irresistible.

The Elixir remedies in all cases the deplorable evils arising from a misuse of the various organs which make up the wonderful machine called man. It restores to full vigor every delicate function connected with that mysterious compound agency of matter and mind, necessary to the reproduction of human life. To persons of feeble muscular frame, or deficient in vital power, it is recommended as the only means of communications. recommended as the only means of communicating that energy which is necessary to the proper enjoyment of all the natural appetites, as well as the higher mental attributes. Its beneficial effects are not confined to either sex or to any age. The feeble girl, the aiting wife, the listless, enervated youth the over-worn man of business, the victim of nervous depression, the individual suffering from general debility, or from the weakness of single orgen, will all find immediate and perma-nent relief from the use of this incomparable renovator. To those who have a predisposition to paralysis, it will prove a complete and unfailing safeguard against that terrible includy. There are many, perhaps, who have so trifled with their constitutions, that they think themselves beyond the reach of medicine. Let not even these despair. The Elixir deals with disease as it exists, without reference to causes, and will not only re-move the disorder itself, but

REBUILD THE BROKEN CONSTITUTION The derangements of the system, leading to nervous diseases, and the forms of nervous disease itself, are so numerous that it would require a column to enumerate the maladies for which his preparation is a specific. A few, however, may be enumerated, viz: neuralgis tic-doloureux, may be enumerated, viz: neuralgia tic-doloureux, headache, incipient paralysis, hysteria, palpitation of the heart, spinal affections, muscular debility, tremors, flatulence, a pricking sensation in the flesh, numbness, torpidity of the liver, mental depression, weakness of the will, indisposition to move, faintness after exercise, broken sleep, and terrifying dreams, inability to remain in one place or position. weaking of the procreative organs, or position, weaking of the procreative organis-sexual incompetency, melancholy, monomania, fluor albus, staking at the stomach, female irre-gularities, a chronic tendency to miscarriage, emaciation, and all complaints growing out of a free indulgence of the passions, and all barrenness that does not proceed from organic causes beyond the reach of medicine.

Whenever the organs to be acted upon are MORSE'S INVIGORATING ELIXIR

Will replace weakness with strength, incapacity will replace weakness with strength, incapacity with efficiency, irregularity with uniform and natural activity, and this not only without hazard of reaction, but with a happy effect on the general organization. Bear in mind that all maladies, wherever they begin, finish with the nervous system, and that the paralyzation of the nervous of motion and sensation is physical death. Bear in mind, also, that, for every kind of nervous disease the Elizir Cordial is the only reliable preparation. he Elixir Cordial is the only reliable preparation

CURE OF NERVOUS DISEASES. No language can convey an adequate idea of the immediate and almost miraculous change live or die, survive or person. We invite short which it occasions in the diseased, debitinged, and patronize honorable medicine, sink or swim live or die, survive or person. We invite short sensible, and practical papers from the profession by excess, weak by nature, or impaired by sickness, the unstrung and relaxed organization is at once braced, revivined, and built up. The mental once braced, revivined, and bank up. The membra and physical symptoms of nervous disease vanish together under its influence. Nor is the effect temporary; on the contrary, the relief is perma-nent, for the cordial properties of the medicine reach the constitution itself, and restore it to its normal condition. Well may the preparation be

medicinal wonder Of the nineteenth century. It is, as the first scientific man in the world would have admitted, hat miracle of medicine heresofore supposed to have no existence.

A STIMULANT THAT ENTAILS NO RE ACTION.

Its force is never expanded, as is the case with opium, alcoholic preparations, and all other excitants. The effect of these is brief, and it may well be said of him who takes them: "the last state of that man is worse than the first.". But the Elixir is an exhilarant without a single drawback-safe in its operation, perpetual in its happy influence upon the nerves, the mind, and the entire organization; it will also remove depressions, excitement, a endency to biush, sleeplessness, dislike of society,

incapacity for study or business. LOSS OF MEMORY, Confusion, giddiness, rush of blood to the head. melancholy, mental debility, hysteria, wretchedess, thoughts of self-destruction, fear of insanity, bypochondriasis, dyspepsia, general prostration, rritability, nervousness, inability to sleep, diseases neident to females, decay of the propagating func-tions, hysteria, monomania, vague terrors, palpi-tation of the heart, impotency, constipation, &c., any reliance to be placed on human testimony

The study of practical anatomy may be presented with the most ample facilities, and at

cuted with the most ample facilities, and at very trifling expense.

Clinical lectures are regularly given at the college infirmary and Richmond almshouse. The infirmary, under the same roof with the college, and subject to the entire control of the faculty, is at all times well filled with medical and surgical cases, and furnishes peculiar facilities for clinical instruction. Many surgical operations are performed in presence of the class; and the students, being freely admitted to the wards, enjoy, under the guidance of the professors, unusual opportunities for becoming familiar with the symptoms, liagnosis, and treatment of disease.

Expenses—Matriculation fee, \$5. Professorates, \$100. Demonstrator's fee, \$10. Graduation fee, \$25.

The price of board, including fuel, lights, and servants attendance, is usually \$3 or \$34 per week.
